

Notes re Contract and Consent:

- **You can have supreme authority over you and the land**
- **Everything works via contract**
 - Verbal
 - Written
 - Action
- **The Government/Crown is controlling you through contract and consent**
 - Force
 - Misleading
 - Deception
- **The Government/Crown is a Company bound by Contract Law. However, if they own the subject, contract law no longer applies**
 - The only contract the Crown needs, is for you to acknowledge/represent/respond to the artificially constructed name the Crown has created
 - This is ONLY a legal name/ artificial construct
 - After acknowledging you are this Legal name, Crown ownership applies.
No more contract is needed
 - Licence
 - Birth Certificate
 - Legal name
 - Sir name (surname)
 - Place of residence
 - Signature/declarations
- **Companies are bound by the basic fundamentals of Contract Law. This includes:**
 - NZ Government/Crown
 - All companies
 - District Councils
 - IRD

- Land Information
 - WINZ
 - Police
 - The Justice System/Courts
 - All persons, individuals, citizens, residents as recognised in law.
- **To establish a valid contract, full and specific disclosure needs to be presented and it must have good intent.**
 - Authority claimed by the presenter of the contract, over the recipient = bad intent
 - Intent to empower or to enslave = bad intent
- **Definitions and interpretations of all words need to be understood, so you don't get deceived by language (legalese)**
 - misleading language = bad intent
 - a corporate language is legalese
 - language you have been taught is corporate
 - use eg. Blacks Legal Dictionary to check meanings
- **A contract becomes null and void when the following are used:**
 - Lies
 - Trickery
 - Deception
 - Force
 - Bad intent
- **A company is a legal fiction, it:**
 - Cannot own anything of substance
 - Cannot own you
 - Cannot own land
 - Cannot injure anything it does not own
 - Can only operate in Commerce and Contract with artificial entities only
 - Cannot have authority over you, land or anything of substance

- **Any persons name the Crown uses to contract (verbal or written) has been artificially constructed so they can claim ownership and authority over the persons**
 - Persons definitions: a mask, company, corporation, corporate entity, artificial persons, natural persons. (A natural persons is still an artificial entity).
 - Any name - all capital letters, surname, Mr, Mrs, etc. Any format they see fit that does not have 'living' in front of it is a 'persons'
 - Reference legal dictionaries: Blacks Law, Butterworth etc

- **Any Crown contracts presented to you using the *legal name* contains deception with intent to enslave using this fraudulent instrument (contract)**
 - a corporate entity can only communicate with another corporate entity
 - a corporate entity has a very limited jurisdiction (the dead can't talk to the living and visa versa)

- **Your job is to evaluate the intent in a contract, and correct the errors to expose the fraud (if there is any)**
 - Clarifying the name/entity, legal name is not ones true name
 - Intent- Is it good or bad?
 - Definitions and interpretations of all words using a legal dictionary
 - Expose the Deception
 - Provide Remedy

- **Method: G.E.C.R**
 - **Gather:** assess intent. If bad, gather information that leads the agent into self incrimination
 - **Evaluate:** words & definitions in legalese and the intent of the claimant
 - **Correct:** all errors. Expose their intent (if bad). Pull contract apart
 - **Remedy:** freedom to choose, prosecution, leaving a door open as an error to be corrected by the claimant, change or decline the contract

- **Action**

- What do you desire?
- Can you achieve this?
- Do you need to be re-educated?
- This applies to every claim of authority some else has over you and your affairs.
 - Territorial Authority – consents, permits, licences etc
 - Government/Crown – IRD, Police, Land Information, NZ Justice, Internal Affairs, et al
 - Any man or woman using a corporate veil or not, to empower themselves with powers they normally would not have

Moving forward:

- Evaluate your needs
- Restructure your life to become less reliant on the State
- Create extended communities
- Establish services and skills you have and can trade amongst others
- Create your own physical directory for contacts
- Know the power you have over corporate entities and how to address it honourably

You have supreme authority over yourself and your affairs absolute. You have supreme authority over the land you are standing on, so long as you are not harming someone else

These are living documents, this is just a guide line to give direction for you to learn and teach from

We have no intent to overthrow The New Zealand Crown
